

Writing Skills

AI Tutor - English - Lesson 3

The Writing Process

- **Plan** - decide your main idea and outline key points.
- **Draft** - write freely without worrying about perfection.
- **Revise** - improve clarity, structure, and word choice.
- **Edit** - fix grammar, spelling, and punctuation.

Paragraph Structure

A strong paragraph opens with a topic sentence stating the main idea, follows with supporting details or examples, and closes with a sentence that ties the idea together.

Tips for Clear Writing

- Prefer short, direct sentences over long, complex ones.
- Use active voice ('She wrote the report') over passive voice ('The report was written by her').
- Read your work aloud to catch awkward phrasing.
